

Sidewalk Matting

Safer in rain, snow and ice

Strad's safety walkway mats are made of serrated bar grating, featuring a spill containment option. Industrial designed matting prevents workers from slipping in wet conditions on project sites. Safety walkways are available for rent or lease.

Features

- Wide flange beam or tube construction, with serrated bar grating
- Boxed ends
- Boxed-in lifting shackles
- New square roll ends for added safety

Advantages

Strad's safety walkways are designed to provide safe gripping when walking in wet and slippery conditions such as rain, snow and ice. The serrated bar grating allows for great traction and drainage of water.

Specifications

Size

4' W / 8' W (Length is built to specification.)
